

Bleaching Powder

Bonmetique Bleaching Powder with Chamomile extract bleaches hair more rapidly and lightens up to 7 shades. Its DUST FREE formula reduces inhalation of volatile particles eliminating risk of irritation. It has a very pleasant fragrance.

HOW TO USE: Mix 1 part of Bonmetique Bleaching Powder with 3 parts of 20, 30 or 40 volumen Bonmetique developer in a non-metallic bowl until you get an homogeneous mixture. Apply on dry, non-washed hair.

VIRGIN HAIR: Start bleaching the lengths and ends without applying the mixture on the roots. Leave the product until you get the color you desire. Then, apply the mixture on the roots until you obtain an even tone.

RETOUCHING ROOTS: Apply the mixture only on the roots without touching the previously bleaching hair. Leave the product until you get the color you desire. Once the chosen shade is obtained, rinse with abundant warm water and wash with Bonmetique Shampoo. For better results use Bonmetique Post Coloring Acid Ph Treatment.

CAUTIONS: This product may cause allergic reaction. Make an allergic test. Do not apply on eyebrows or eyelashes. Don't apply if the scalp is irritated or cut. In case of contact with eyes rinse with abundant water. Maintain in a cool place. Keep out of reach of children.

ALLERGY TEST: Prepare a part of the product. Apply a small quantity on the side bend of your elbow or behind the ears. Wash the area after 20 minutes. If after 24 hours you don't observe any sort of reaction like burning, itching, swelling or irritation you may apply the product.
